

Health, Wealth and Happiness: What Makes a Prosperous Region?

South West Observatory 7th Annual Conference

The Assembly Rooms, Bath
Wednesday 31 March 2010

What do we envisage when we wish each other a prosperous New Year? How can we make it happen for people in our region? The South West Observatory's 7th Annual Conference will bring together a broad range of expertise to consider how distinct notions of prosperity are correlated, how to articulate and measure a common understanding of prosperity, and how to bring it about.

The South West Observatory is the region's data and intelligence network, working to inform policy and decision making through the exchange of ideas beyond thematic and spatial boundaries. With a combination of presentations and 'question time' style debate, the conference will give delegates the opportunity to understand and explore the interrelationship of public policy objectives.

Confirmed speakers and panelists:
Matthew Taylor (RSA), Jonathon Porritt CBE (Forum for the Future), Dr Gabriel Scally (NHS), Dr Sara Eppel (DEFRA), Nigel Jump (South West RDA), Prof. Katie Williams (UWE), Prof. Tom Schuller (NIAACE), John Savage CBE (South West RDA), Colin Molton (HCA), Melanie Hall MBE (NFU) and Dame Suzi Leather (Charity Commission).

Prices:
Standard Fee £150
Concession £100
(charities, voluntary and community sector, full-time students)
